Introduction

The quality of work is mainly influenced by three factors: experience, passion, and repetition.

For the past 10+ years I worked mainly on iOS apps. Ever since my youth I was interested in games though. While still being active as an iOS developer I am also getting into games development with Unity lately.

Therefore, I am available in both areas and would describe myself as a senior iOS and junior Unity developer.

Job History

06/2016 – Present   Co-Founder and Co-CEO of Dewango GmbH, Potsdam, Germany

- o Client project: **Audi Business Innovation GmbH**, Munich, Germany
